

ORIGINAL PATENT APPLICATION NUMBER 21,127 FOR IMPROVEMENTS IN SYSTEMS OF AND APPARATUS FOR WASHING A

need a few sentences on why it took so long and the date of the PCOR since it is the only one that has been taken OFF the teenager list! This information is needed to respond to a criticism raised about teenager sites in the RFF Report on Superfund's Future.

Common Reasons for the length of time include:

1. Municipality/Community/State issues - issues somewhat beyond our control
2. Groundwater Issues - various concerns regarding remediation goals attainment
3. Uncooperative PRPs - delays associated
4. Remediation implementation - delays in clean up
5. Changed site conditions - new contaminant identified, remedy failure
6. Treatment issues/remediation goals and funding

If your site does not fit into one of the above, let me know the description and we can create a new one.
